USB Disk | SR1 USB 3.0

Team USB Disk (SRI USB 3.0)

Team SR1 is the latest USB 3.0 flash. When compared with traditional USB2.0 flash with a transfer speed at 480Mbps, USB 3.0 significantly enhances the data transfer speed to shorten data storage time with a theoretical bandwidth at 5Gbps. The super sports car appearance design brings an unusual taste. The slide USB connector design prevents the loss of cover. Light in weight and small in size make it convenient to carry. Therefore, the Team SR1 USB 3.0 is your best choice for data storage.
